INSTALLATION.**

TACTILE GUIDANCE SYSTEM RUBBER STRIP.

Matting's tactile guidance system is a tactile and visual product specially designed for indoor and outdoor floor spaces. Its surface is easy to detect due to its high visual contrast with the floor. Due to the rubber material the tiles are non-slip even in humid conditions, they are wheelchair-friendly and eliminate the tripping hazard. The tiles are glued onto existing floors and surfaces without damaging them. They can be placed on platforms, stairs, ramps, hallways, elevators, etc.

TECHNICAL DATA

Strip	Dimensions (+/- 1 mm)	Colour	NCS	Weight	Art. no.
Material:	Rubber Temperature range. +50° / -10° C				
	188 x 1950 x 5 mm	RAL 7040 light grey	0,62	2 kg	362200
	188 x 1950 x 5 mm	RAL 7016 dark grey	0,24	2 kg	362201
	300 x 2100 x 5 mm	RAL 9003 white	0,83	3.8 kg	362205
